Here's what to say:

"Hey _____! I hope you're having a great week! I wanted to let you know about an amazing collection I am doing now through (*fill in date*)! I am creating cancer care packages for (*fill in place where you are giving*). The package includes satin lips scrub and balm, extra emollient cream and a hydrating body lotion which are very helpful items to combat the skin dryness for people receiving chemo treatments. The cost is \$30 per package & all of the proceeds are going directly to the patients (or you can have it given to someone going through treatments that you know personally- but no profit is taken). My goal is to collect 20 packages! Can I count you in to give a package??!! Thanks so much either way!

When they say yes, reply, "Thank you sooooo much! How many sets would you like to give?.... Great! And how would you like to handle it? Awesome! You Rock!!

So, _____ as a thank you for being a part of this movement, you have to let me treat you to a free pampering session! You'll get to try all my new goodies, and I have a special thank-you gift I want to give you. What's better for you... (. get date and time... proceed as a normal booking call, pre-profiling her and then telling her she can invite friends and getting their names and numbers...)
